Abstract

The Introduction of anything related to systems architecting, such as methods or techniques, systems thinking, or role and task requires a change management strategy. We will discuss how to introduce these changes into an organization.

Distribution

This article or presentation is written as part of the Gaudí project. The Gaudí project philosophy is to improve by obtaining frequent feedback. Frequent feedback is pursued by an open creation process. This document is published as intermediate or nearly mature version to get feedback. Further distribution is allowed as long as the document remains complete and unchanged.

Change Management Heuristics

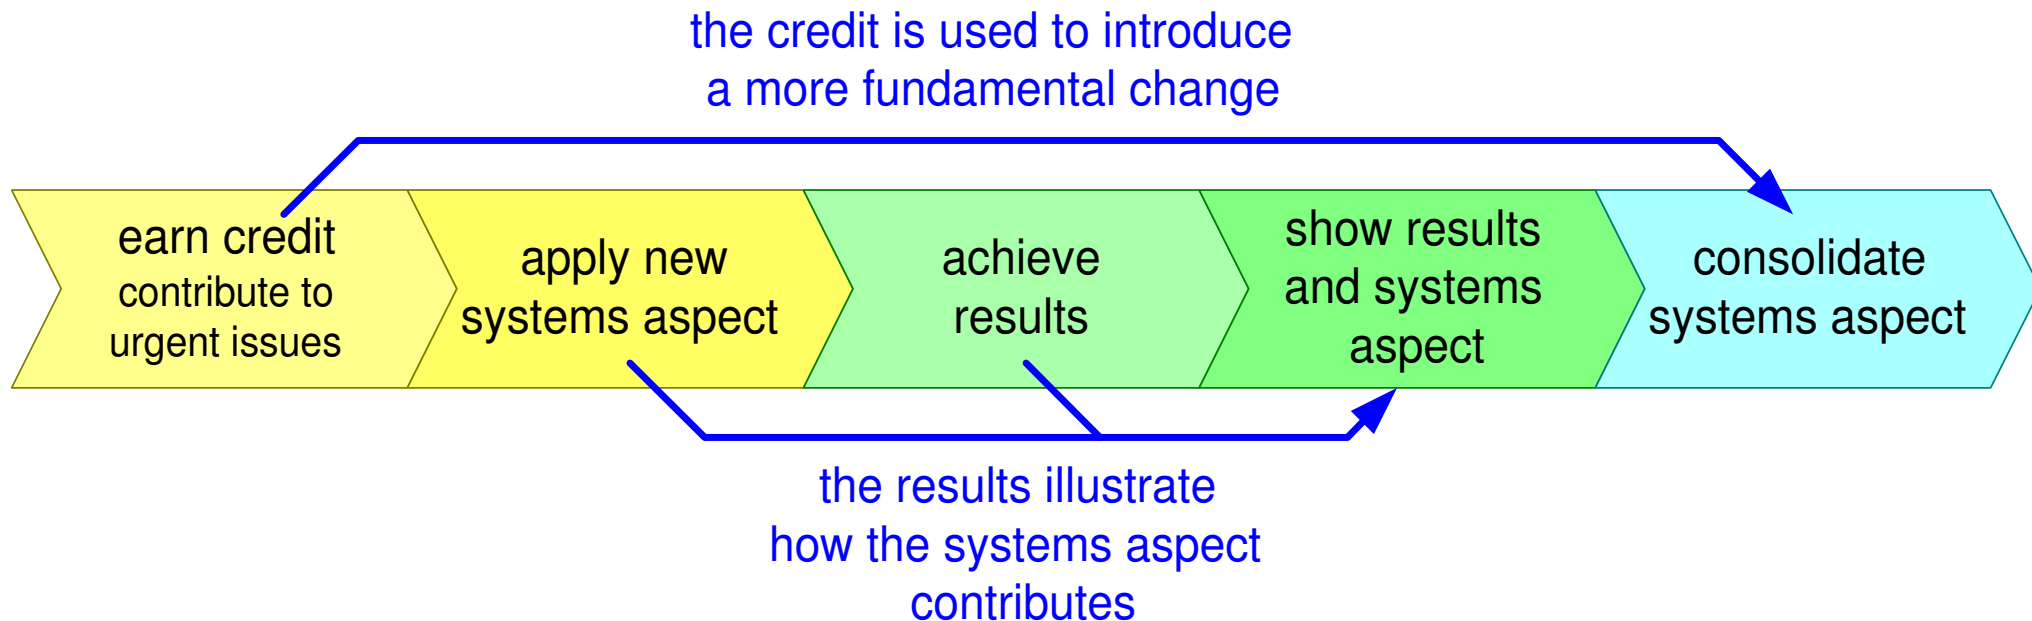

People don't want to **be** changed. They are quite often willing to change.

Changing the way of working or the culture costs many years.

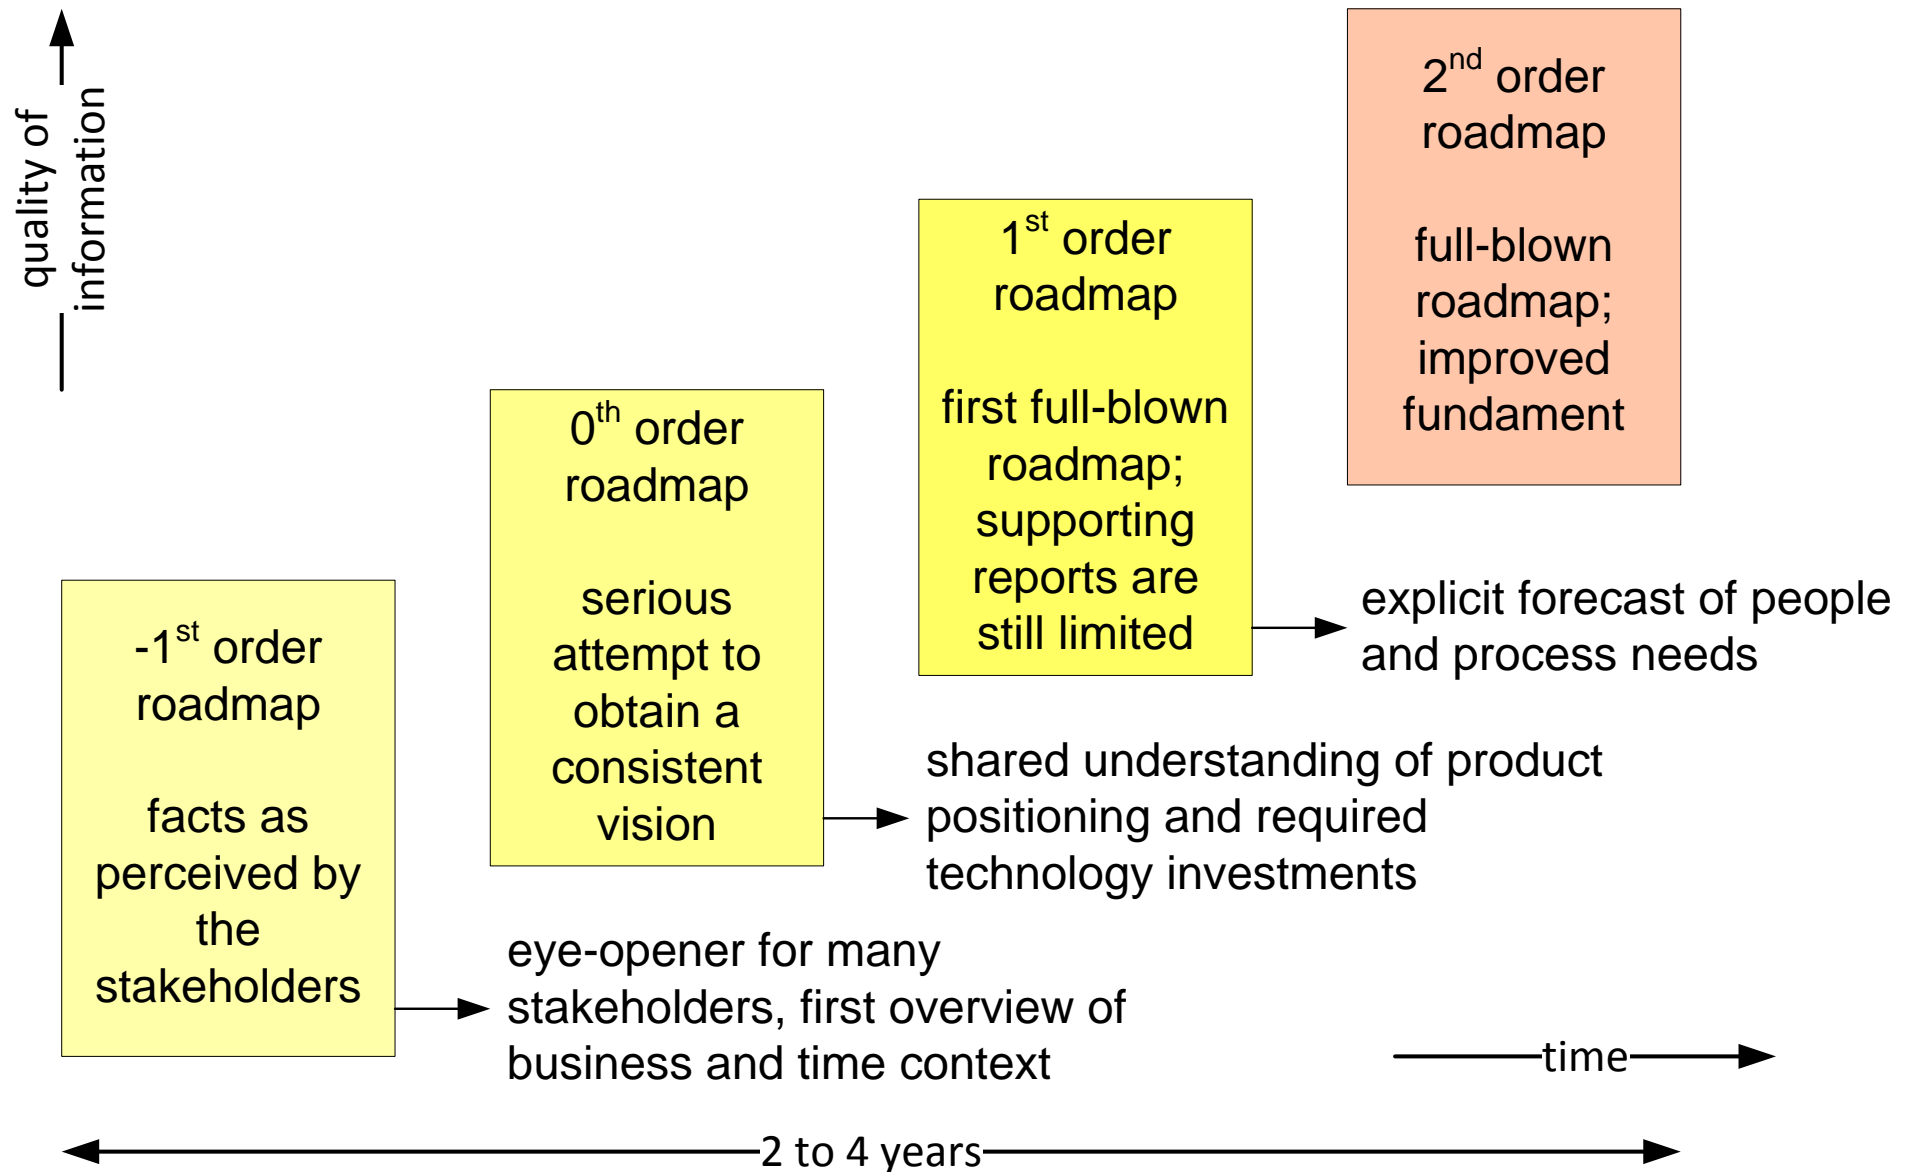

Work at multiple tracks at the same time, a.o. managerial, operational, strategic, etc.

Earn credit by showing usable results.
