Abstract

This article describes the Requirements Engineering session part of the Software Engineering block in the OOTI curriculum of the Technical University Eindhoven. The focus of this course is on capturing and managing requirements. The notion of key drivers and story telling will be introduced as a means to capture and manage. During the course an exercise is used based on video distribution via satellite. The students have to elicit the requirements for the required systems, working in teams of 4 students. Every student writes an individual report about the exercise.

Distribution

This article or presentation is written as part of the Gaudí project. The Gaudí project philosophy is to improve by obtaining frequent feedback. Frequent feedback is pursued by an open creation process. This document is published as intermediate or nearly mature version to get feedback. Further distribution is allowed as long as the document remains complete and unchanged.

September 9, 2018

status: finished

version: 1.1

block 1: teacher provides case	
What are requirements, black box, SMART	1/2 day
homework: make requirement specification	
Customer and Application view, Story telling	1/2 day
homework: improve requirement specification	
Discussion of requirement specification per team	1/2 day

block 2: actual current case of OOTI education	
Financial viewpoint, Presentation to management	1/2 day
homework: make presentation outline	
Documentation How-to	Coaching and discussion
homework: make presentation	1/2 day
Presentation project case to management team	1/2 day
individual report	

Program

time	subject
Session 1	What are requirements, black box, SMART
Session 2	Customer and Application view, Story telling
Session 3	Discussion of requirement specification per team
Session 4	Financial viewpoint, Presentation to management
Session 5	Documentation How-to, Coaching and discussion session
Session 6	Presentation of project case to management team

Schedule

block 1; teacher provides case

What are requirements, black box, SMART	1/2 day
homework: make requirement specification	
Customer and Application view, Story telling	1/2 day
homework: improve requirement specification	
Discussion of requirement specification per team	1/2 day

block 2; actual current case of OOTI education

Financial viewpoint, Presentation to management	1/2 day	
homework: make presentation outline		
Documentation How-to	Coaching and discussion	1/2 day
homework: make presentation		
Presentation project case to management team	1/2 day	
individual report		

Case Instructions

1. Block 1 session 1: Make an initial requirements specification
2. Block 1 session 2: Improve and complete requirements specification
3. Block 2 session 4: Make an outline of a presentation of maximum 10 minutes, target audience: management team of your company
4. Block 2 session 5: Prepare and exercise presentation
5. Block 2 session 6: Write an individual report reflecting on: requirement specification, management presentation, lessons learned and how to do it next time.

Case: Recommended Steps

1. Make a black box view of the system
2. Make some initial drafts and designs to explore the problem.
3. Make a story which helps to understand the products, make sure to use the criteria for a story.
4. Look from all stakeholder points of view towards the problem and identify what they need and what they expect.
5. Analyze the information obtained so far and extract the underlying requirements.
6. Abstract the key drivers behind the requirements.
7. Make a top-down description of the requirements.

Case: Questions for Individual Report

- What are the most important lessons you learned from these exercise (requirement specification, management presentation)?
- Which roles did the members of the group play during the exercise?
- How would you approach such a problem the next time?
- Which stakeholders understand your group presentation? Are they happy with the presentation?

Submission of Homework

Homework instructions

specification minimum 4 hours work/person, maximum 8 hours

maximum 6 A4 pages

presentation minimum 2 days work/ person, maximum 5 days
