Abstract

The difficulties of doing scientific research on architecting methods, where many soft issues play a role, are shown. The importance of creating a scientific base is discussed.

Distribution

This article or presentation is written as part of the Gaudí project. The Gaudí project philosophy is to improve by obtaining frequent feedback. Frequent feedback is pursued by an open creation process. This document is published as intermediate or nearly mature version to get feedback. Further distribution is allowed as long as the document remains complete and unchanged.
