

SESG

Systems Engineering Study Group 2016

The Systems Engineering Study Group meets at Buskerud and Vestfold University College, Kongsberg, Norway. The objective of the meetings is to exchange experience between people who are interested in Systems Engineering or who have the intend to become a Systems Engineer. The SESG discusses one theme per meeting, the subjects are one of many SE aspects. We have two to three meetings per year.

The SESG would like to invite you to the next meeting **24th November** at Buskerud and Vestfold University College, **2pm to 5pm.**

Topic: "Architecture Overview"

Description: A good architect is not only making good designs and requirements. He is also good in presenting his material and "selling" his ideas to the management and owners of the products or to people who shall use his material for more detail design.

For this purpose several tools are available – both sophisticated tools using modelling and tracing capabilities. Or you can just use simple written presentations in form of A3s or Power Point presentations. The main thing is to make the design understandable for the audience and give them the necessary understanding to take decisions (managers) or to implement the design into physical HW or SW.

Agenda and presenters:

14:00-14:10 - Welcome and introduction.

14:10-15:00 - Presenters: Gerrit Muller (HBV), Ole Kåre Ulsvik/Sindre Løndal (Students HBV), Oluf Tønning/Bjørn Viktor Larsen (Kongsberg Defence Systems), Silje Meskestad

15:00-15:15 - Break.

15:15-17:00 - Discussions in groups, wrap-up and closing.
