Abstract

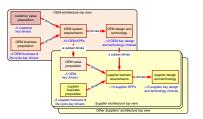

This course focuses on systems engineering in companies that are supplying to an OEM company. This presentation elaborates the development process and the various roles in that process.

Distribution

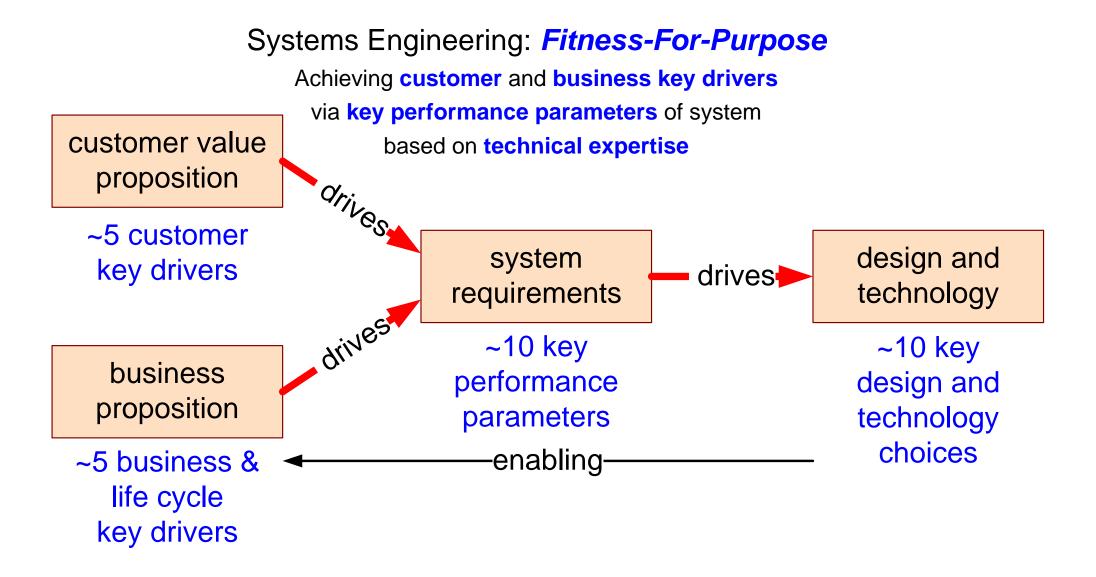

This article or presentation is written as part of the Gaudí project. The Gaudí project philosophy is to improve by obtaining frequent feedback. Frequent feedback is pursued by an open creation process. This document is published as intermediate or nearly mature version to get feedback. Further distribution is allowed as long as the document remains complete and unchanged.
