#### **Abstract**

Architects struggle with their visibility at higher management echelons. The introvert nature of architects is a severe handicap. Participation of architects in management teams is important for balanced technical sound decisions and strategy. Improved managerial communication skills of architects are required. This article describes how to give a more effective presentation to higher management teams. Subjects discussed are the preparation, content and form, do and don't advise.

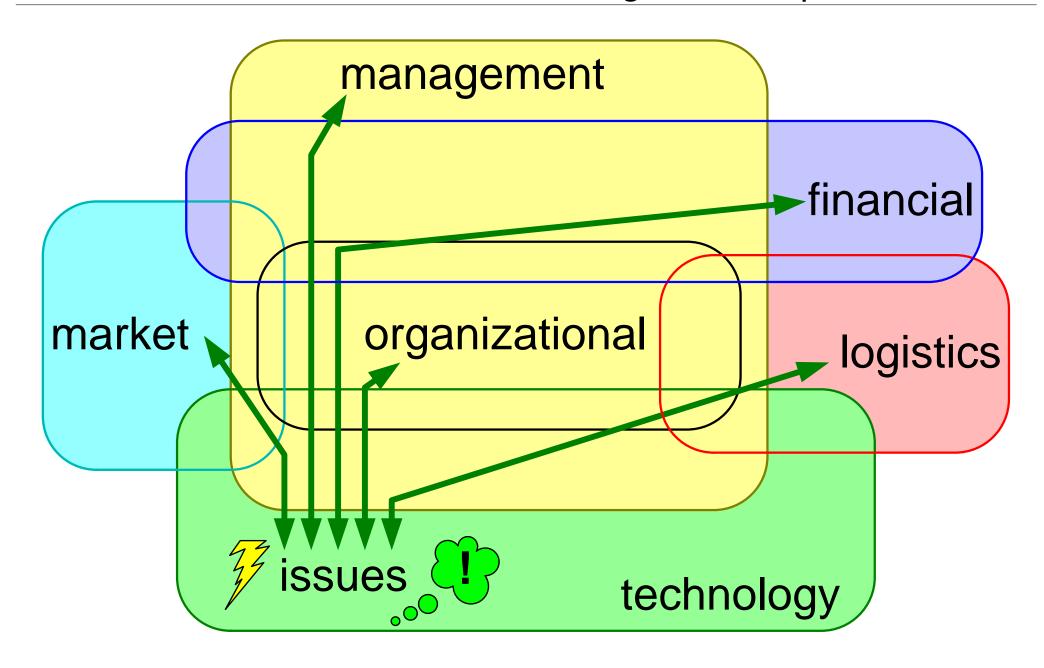

#### Distribution

This article or presentation is written as part of the Gaudí project. The Gaudí project philosophy is to improve by obtaining frequent feedback. Frequent feedback is pursued by an open creation process. This document is published as intermediate or nearly mature version to get feedback. Further distribution is allowed as long as the document remains complete and unchanged.

# Architectural issues related to managerial viewpoints

# Characteristics of managers in higher management teams

### common characteristics

- + action-oriented
- + solution rather than problem
- + impatient, busy
- + want facts not beliefs
- + operate in a political context
- + bottom-line oriented: profit, return on investment, market share, etc.

### highly variable characteristics

- ? technology knowledge from extensive to shallow
- ? style from power play to inspirational leadership

# Always prepare with small team!

content mutual interaction understand audience 70% 30% of effort of effort + gather facts + gather audience background + perform analysis + analysis audience interests + identify goal and message + identify expected responses + make presentation + simulate audience, + polish presentation form exercise presentation

### Recommended content

- + clear problem statement (what, why)
- + solution exploration (how)
- + options, recommendations
- + expected actions or decisions

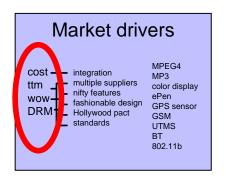

supported by

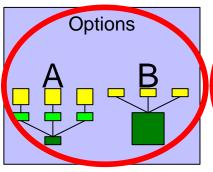

facts and figures

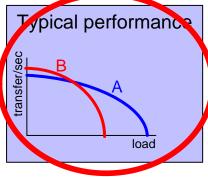

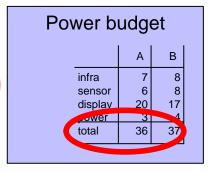

# Mentioned info, shown info and backup info

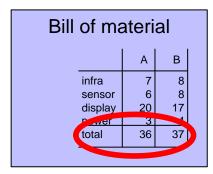

# mention the red information only

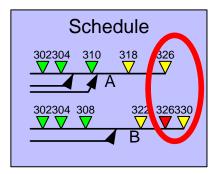

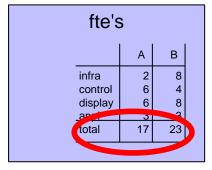

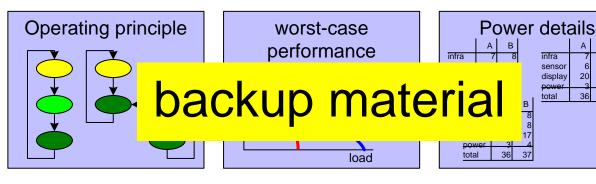

# Form is important

# poor form can easily distract from purpose and content

presentation material

presenter's appearance

+ professional

+ well dressed

 + moderate use of color and animations + self confident but open

+ readable

+ use demos and show artifacts

but

stay yourself, stay authentic

# Don't force your opinion, understand the audience

# do not

preach beliefs

- underestimate technology knowledge of managers
- tell them what they did wrong
- oversell

## do

- + quantify, show figures and facts
- + create faith in your knowledge
- + focus on objectives
- + manage expectations

# How to cope with managerial dominance

### do not

do

- let one of the managers hijack the meeting
- + maintain the lead

- build up tensions by withholding facts or solutions
- + be to the point and direct

- be lost or panic at unexpected inputs or alternatives
- + acknowledge input, indicate consequences (facts based)

# Exercise presentation to higher management

- + Bring a clear architecture message to
- + a Management team at least 2 hierarchical levels higher
- + with 10 minutes for presentation including discussion (no limitation on number of slides)
- \* architecture message = technology options in relation with market/product
- \* address the concerns of the management stakeholders: translation required from technology issues into business consequences (months, fte's, turnover, profit, investments)

### Exercise schedule
