Abstract

This presentation discusses organizational aspects, such as roles of people, of Systems Integration.

Distribution

This article or presentation is written as part of the Gaudí project. The Gaudí project philosophy is to improve by obtaining frequent feedback. Frequent feedback is pursued by an open creation process. This document is published as intermediate or nearly mature version to get feedback. Further distribution is allowed as long as the document remains complete and unchanged.

Roles in Systems Integration

project leader

organization
resources
schedule
budget

*systems architect/
engineer/integrator*
system requirements
design inputs
test specification
schedule rationale
troubleshooting
participate in test

system tester

test
troubleshooting
report

*logistics and
administrative support*
configuration
orders
administration

engineers
design
component test
troubleshooting
participate in test

machine owner

maintain test model
support test
