Abstract

This presentation discusses the relation between synergy and architecting. Synergy is primarily a business proposition. Architecting facilitates synergy. Architecting ensures fitness for purpose, and balances generalization and dedication.

Distribution

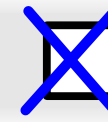

This article or presentation is written as part of the Gaudí project. The Gaudí project philosophy is to improve by obtaining frequent feedback. Frequent feedback is pursued by an open creation process. This document is published as intermediate or nearly mature version to get feedback. Further distribution is allowed as long as the document remains complete and unchanged.
